

## Project Design Phase-II

### Problem Solution fit

<b>Date</b>	29 September 2022
<b>Team ID</b>	PNT2022TMID46387
<b>Student Register Number</b>	820319104007,820319104020
<b>Student Names</b>	Archana.B , Kesavarthini.C
<b>Project Name</b>	Personal Assistance for Seniors Who Are Self Reliant
<b>Maximum Marks</b>	2 Marks

### Problem Solution fit Statement:

Some people find it difficult to learn new apps in this ever-expanding digital environment, and people nowadays tend to forget things more easily, such as taking their prescriptions. People need a way to remember to take their prescriptions without having to learn how to use sophisticated programs.

### Template:

Define the problem	<b>1. CUSTOMER SEGMENT(S)</b> The oldage people who they need to take medicine in on time	<b>6. CUSTOMER CONSTRAINTS</b> Although free,the program works on smartphones  For the get the voice reminder notification to take the medicine	<b>5. AVAILABLE SOLUTION</b>  The cure or maintain the patient health condition properly. Notification system easy to reminder the pateints about their medicine.	Evaluate as different
	<b>2. JOBS-TO-BE-DONE / PROBLEMS</b>  The following jobs are done:  I) Voice reminder suggest the correct medicine in on time  II) Reminder the patients to take the medicine on time	<b>9. PROBLEM ROOT CAUSE</b>  Patients forgot to take their medicine it become a big problem to their health condition to recover. It will make the body condition week	<b>7. BEHAVIOUR</b>  First, the patients known about the health condition and consider to the doctor to the health issues After the patients or caretaker set the alarm with including the medicine name and time when they take the medicine	

<p><b>3. TRIGGERS</b></p> <p>Patients are encouraged to get a medicine properly and check the health condition. The used to improve their health condition and maintained properly</p> <p><b>4.EMOTIONS:BEFORE / AFTER</b></p> <p>Patients forgot to take medicine or forgot the tablet which one they take. After they easily identify the tablet at on time</p>	<p><b>10. YOUR SOLUTION</b></p> <p>The patients take the medicine properly it improve the health condition and patient recovery their problem in easily</p>	<p><b>8. CHANNELS of BEHAVIOUR</b> </p> <p><b>8.1 ONLINE</b> In order for the iot model to get the voice reminder notification when the patients take the medicine or when the medicine are finished</p> <p><b>8.2 OFFLINE</b> In order to complete the medicine and examined their health condition and discuss about their health condition to the doctor</p>
