

## SPRINT-3

<b>Date</b>	12 November 2022
<b>Team ID</b>	PNT2022TMID46387
<b>Student Register Number</b>	820319104038
<b>Project Name</b>	Personal Assistance for Seniors Who Are Self Reliant

### TASK :-

Using MIT app inventor ,create a dashboard (application for your project using MIT app, design the model and test the app).

### APP CONTENTS:

- **Login & signup**
- **Home Screen**
- **Alarm System**
- **Online Medicine Shopping**
- **Medical chat**
- **Emergency Contacts**

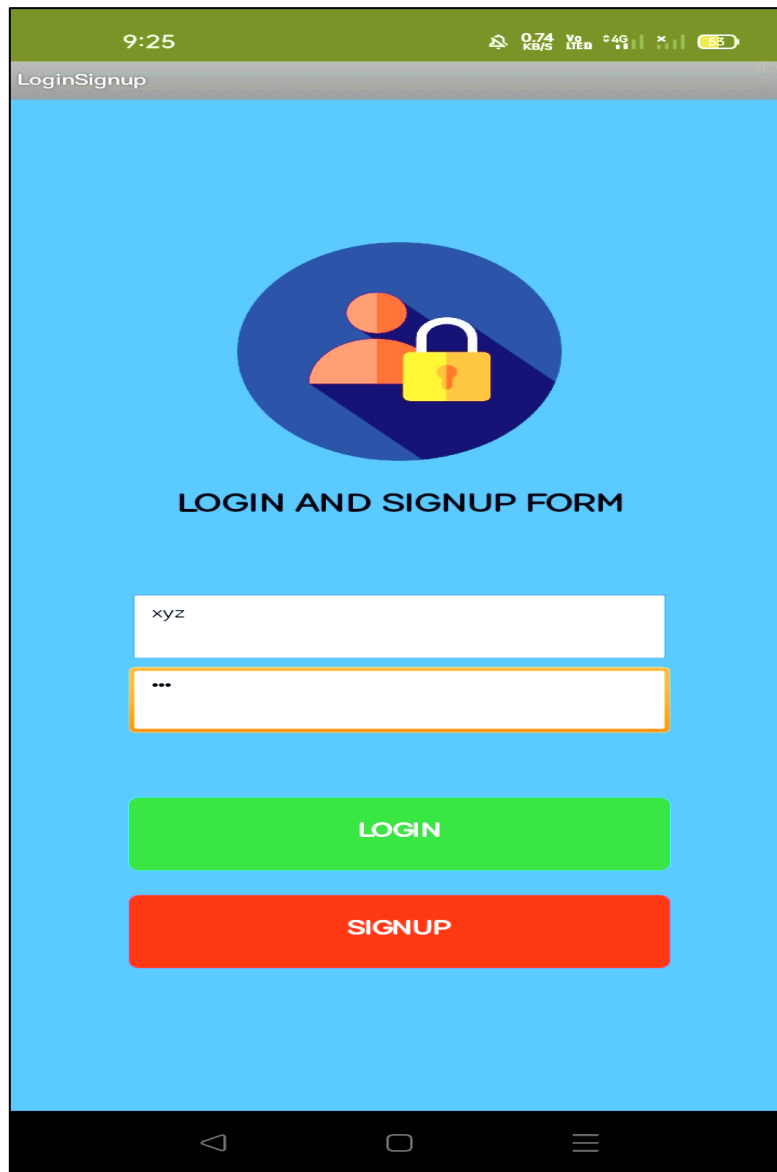

### APP DEMO:

❖ The following screenshots are the sample pages of our app in a mobile view.

❖ App is built using MIT app inventor and simulation using MITAI2 Companion.

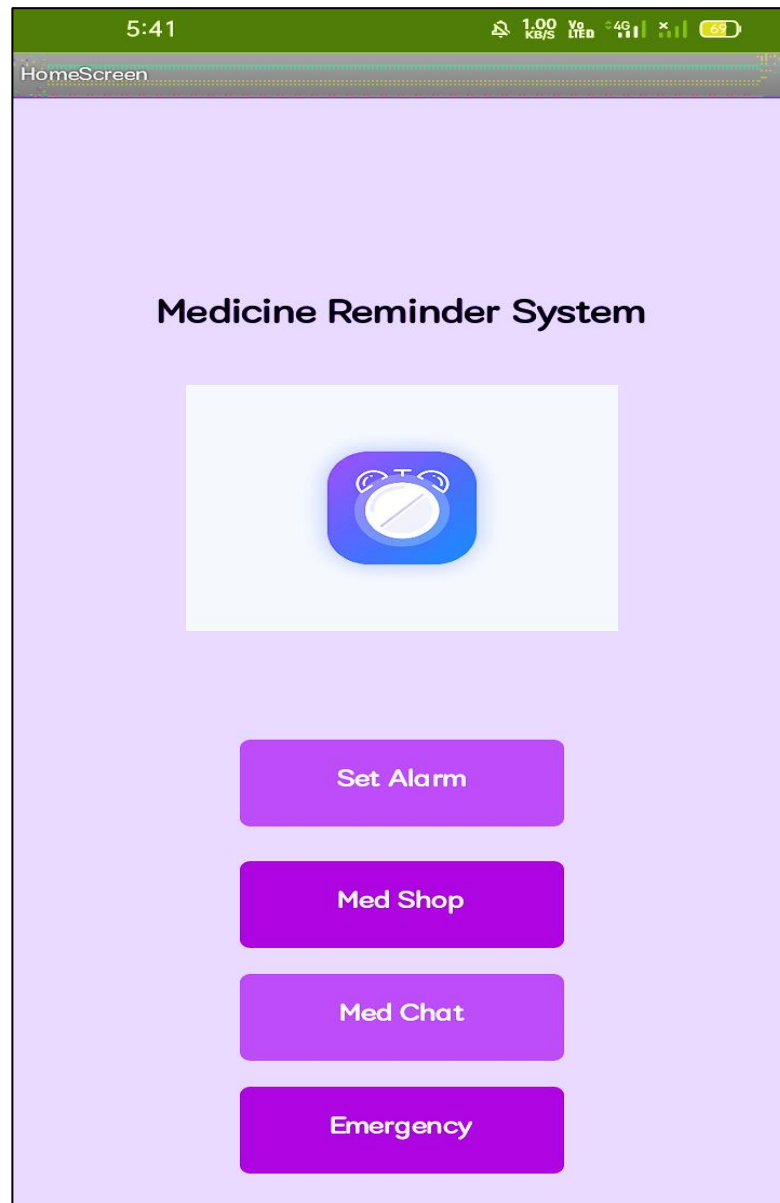

❖ We make use of Node red, IBM Watson, TTS service &Cloudant DB, for the project's workflow.

## 1)SIGNUP/LOGIN SCREEN:

A mobile application screen titled "LoginSignup" with a light blue background. At the top, a status bar shows the time 9:25, network speed 0.74 KB/s, and battery level 55%. Below the title bar is a large blue circle containing an orange person icon and a yellow padlock icon. The text "LOGIN AND SIGNUP FORM" is centered below the circle. There are two input fields: the first contains "xyz" and the second contains three dots. Below the fields are two buttons: a green "LOGIN" button and a red "SIGNUP" button. The bottom of the screen features a black navigation bar with standard Android icons (back, home, and a menu icon).

- ❖ In login/signup page, user can enter the username & password to sign up for the first time using the app.
- ❖ After successful signup, User can use their username & password credentials to login into the app.
- ❖ After successful login, User can be redirected to home screen

## 2)HOME SCREEN:

- ❖ In the Home Screen, user can able to see all the options and features of our app.
- ❖ Home Screen have the following features,
  - Set alarm
  - Med Shop
  - Med Chat
  - Emergency

### 3) SET ALARM SCREEN:

#### Medicine Alarm

Enter Your Medication Details:

MEDICINE NAME:

MEDICINE DOSAGE:

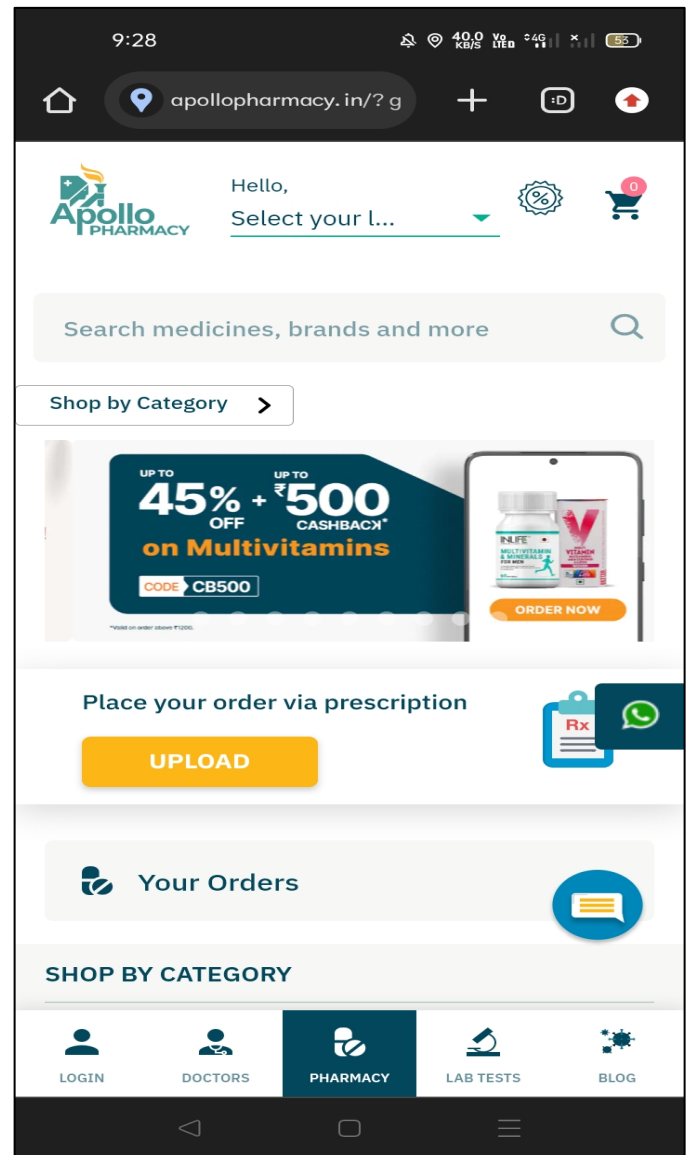

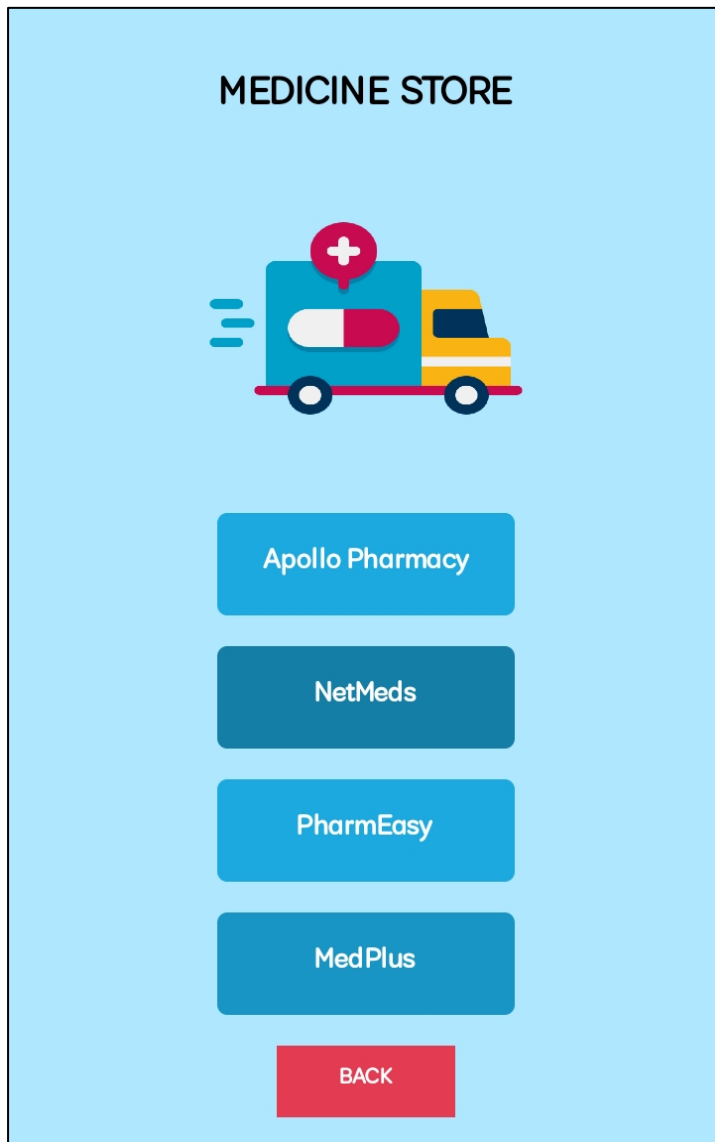

SELECT TIME:

SELECT DATE:

☐ Tick the check Box when you take the medicines

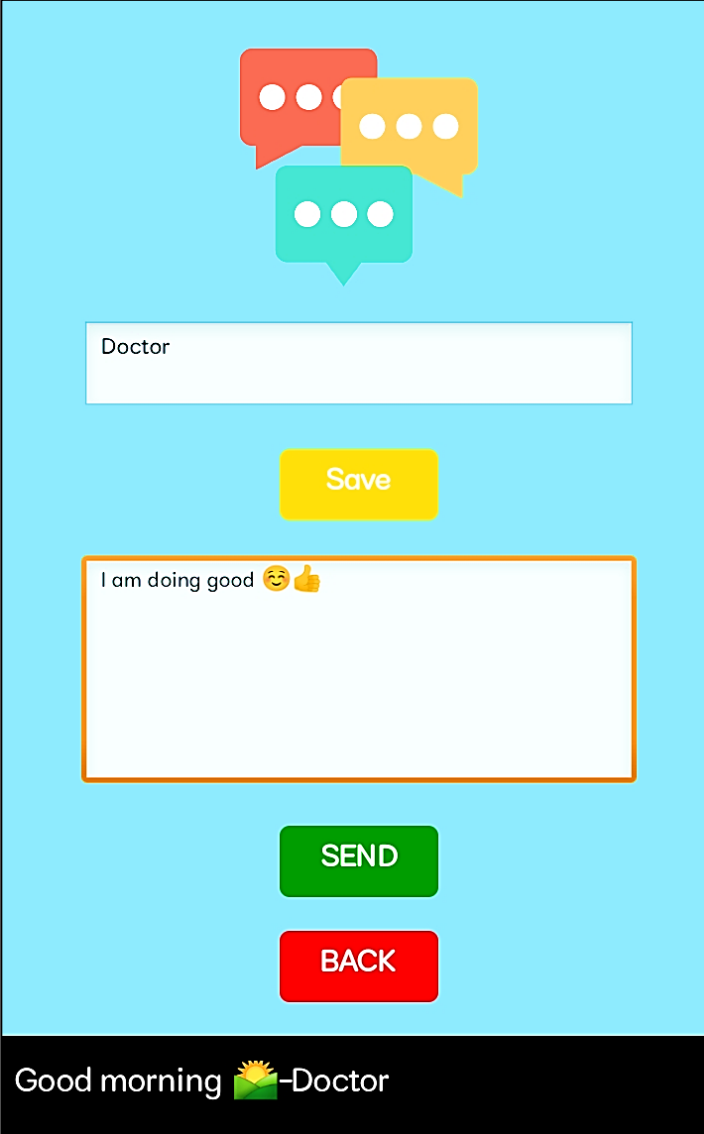

- ❖ In this Screen, user can able to see all the options to set the alarm.
- ❖ User can first add their medicine name & Dosage in the appropriate textboxes.
- ❖ Then they have an option to set the alarm with the help of date and time picker.
- ❖ After submitting all the details, user can get reminder about the intaking of medicines as per the information given by the user.

#### 4) MEDICINAL SHOPPING SCREEN:

- ❖ In this Screen, user can able to purchase their medicines according to their need from the some of the major medicine websites.
- ❖ By click the particular Website button they can be redirected to the respective online medicinal site.
- ❖ Above screenshot is an example, when user click the particular medicinal shopping site (Eg: Apollo pharmacy)

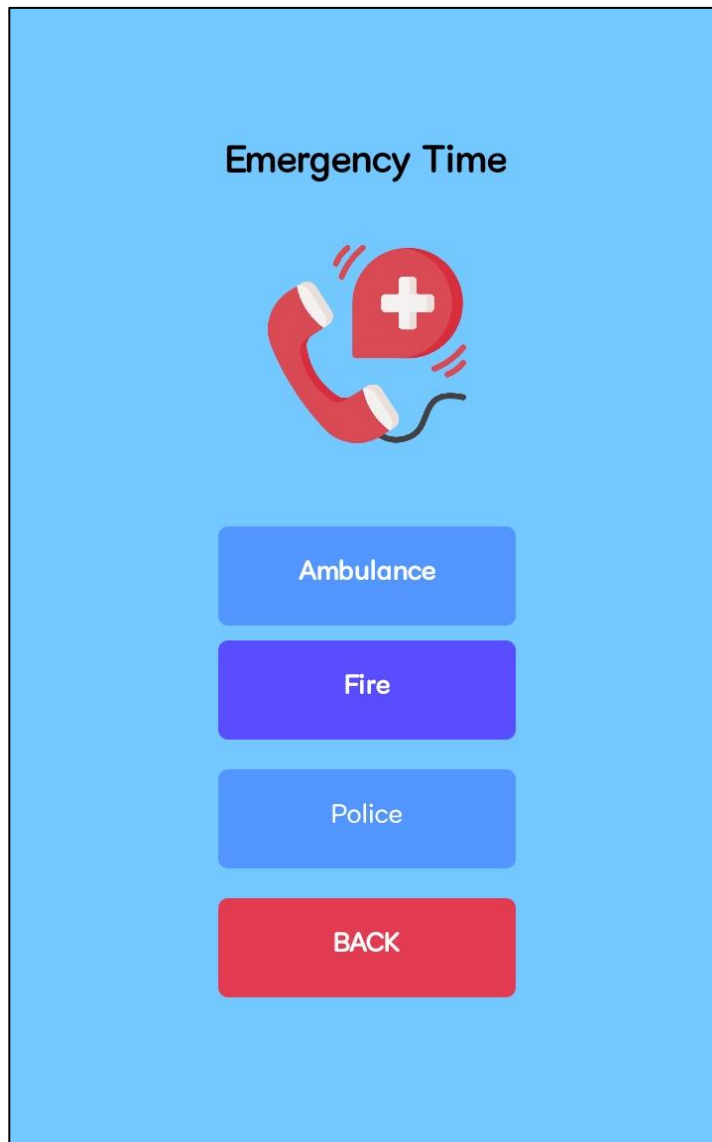

## 5) MEDICAL CHAT SCREEN:

The image shows a mobile app screen for a medical chat interface. At the top, there are three overlapping speech bubbles in red, yellow, and teal. Below them is a white text input field with the placeholder text "Doctor". Under the input field is a yellow button labeled "Save". Below the "Save" button is a larger white text input field with an orange border, containing the text "I am doing good 😊👍". Below this field are two buttons: a green button labeled "SEND" and a red button labeled "BACK". At the bottom of the screen is a black footer bar with the text "Good morning 🌞-Doctor".

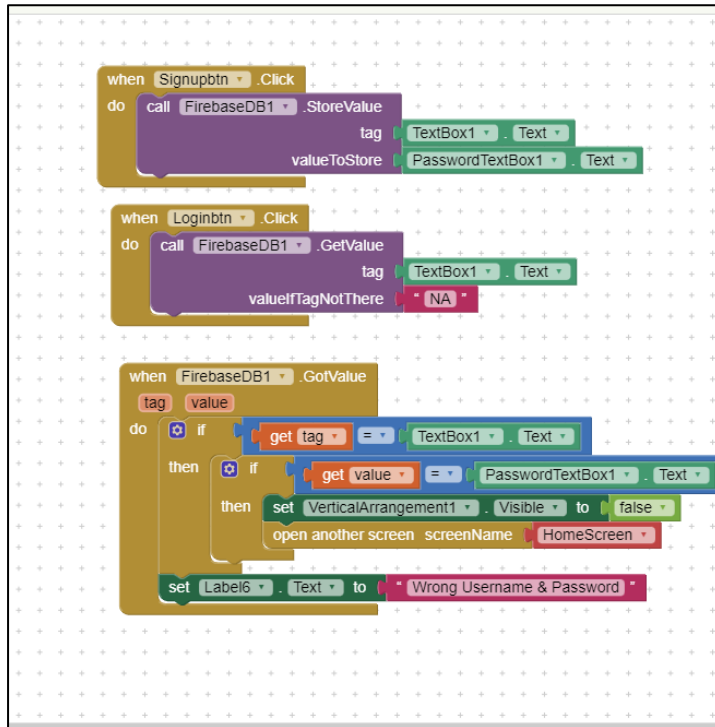

- ❖ In this Screen, user can able to chat with their doctors.
- ❖ User have to give the contact's name whom they want to send message.
- ❖ Above screenshots is an example, when user send the message to the doctor.

## 6) EMERGENCY SCREEN:

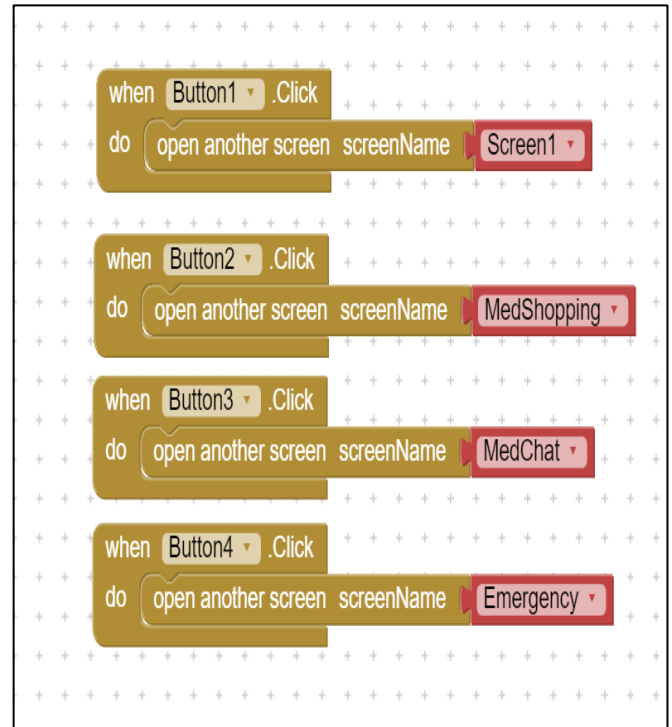

- ❖ In this Screen, user can make a phone call.
- ❖ By default, App provides important phone numbers which will be used in emergency situations.
- ❖ By click the button, user will able to make the phone call.
